The Nursery Tea. The Florence Crittenton nursery tea, given yesterday afternoon by the ladies of

the home management committee, at 218 3d street northwest, was most enjoyable, and a success financially. The cheery par lors and refreshment room, as well as the dormitories, nursery room and halls, are made home-like by carpets, pictures, etc. The decorated china and the silver loaned by Mr. Jarvis, the treasurer of the board of managers, made the tea table look most inviting, and it was most generously patronized. Ladies from various churches assisted in the recentless. ssisted in the reception. All the afternoon the street was lined with the carriages o the callers. National Conference to Be Held in A Promotion for the Assistant at the This City in April - The

An interesting meeting was held yesterday at the residence of Hon. Gardiner G. within the past three days whereby Hubbard, 1328 Connecticut avenue, of the committee appointed lately to co-operate with similar committees in other cities in furtherance of the plan for a permanent treaty of arbitration between Great Britain

and the United States. This plan, inaugurated by members of the New York chamber of commerce, has sistant rector. Dr. Townsend has contemmet with much favor. Committees have plated resigning for some time, and for that been organized in Chicago and New York, reason the vestry of Incarnation has been and it is proposed to take like action in Boston and Philadelphia, and elsewhere, as About a month ago they thought they had soon as possible. Eventually it is hoped the one in the person of Rev. C. W. Bispham, system of arbitration proposed may be ex- but a hitch occurred, and Mr. Bispham actended to all the civilized nations, as well as Great Britain.

Those Present at Yesterday's Meeting. The first meeting of the local committee was held last Friday at the call of the chairman, Mr. Hubbard, for the purpose of listening to an exposition of the project from Dr. Chamberlin of the New York committee. At yesterday's meeting there were present, besides the chairman, Col. J. W. Foster, Mr. John A. Kasson, Mr. C. S. Noyes, Dr. Busey, Dr. Teunis S. Hamlin, Mr.John Joy Edson, Prof. S. P. Langley, Dr. Greene, Mr. S. W. Woodward, Col. H. F. Plount, Judge Peelle, Mr. Boardman, Mr Thomas Nelson Page, Mr. John Hay, Mr Beriah Wilkins, Justice Cole, Bishop Hurst Admiral Walker, Mr. J. B. Wight and Mr C. J. Bell, secretary.

These gentlemen, with others who will be invited to serve, will constitute a committee of twenty-five. Chief Justice Fuller, Commissioner Truesdell and Dr. Mackay Smith will, it is expected, take a place on the committee.

the committee.
There was an interesting general discussion of the mode of procedure and the scope of the plan of arbitration, in which men of the wide experience in diplomatic affairs of Mr. Foster and Mr. Kasson were able to make many valuable suggestions.

A Conference in April. It is proposed to have a conference in this

city in April, at which delegates from each of the states and territories, independent of party or creed, will be present. Dr. Chamberlin has been in consultation with members of Congress during his stay, with a view of ascertaining the most available men for delegates in each section. He spoke of having received very hearty encouragement from members of Congress whom he had

The arrangements will be in charge of executive committees of five from each local committee, and at the conference the whole course of action will be settled upon. The meeting yesterday was most satisfactory in showing that the co-operative move-ment for general arbitration will receive a very hearty and influential backing in the

Progress of the Movement.

In the course of the meeting Dr. Chamberlin gave an intelligent exposition of the plan and progress of the movement He said in this connection: The spontaneous, independent movements in Chicago, Philadelphia, Baltimore, New York and other places, in the interests of a permanent provision for some wise methods of arbitration between the United States and Great Britain, have now become one enthusiastic movement in favor of a national conference. The purpose of the confer-ence is both patriotic and philanthropic. It is clearly understood that there are questions, such as those of national soy The cheapest prices are always cash prices, and these are greements which are debatable, and which ual methods of diplomacy fail to everything almost his own way.

dayst, there well may be a resort to an arbitrating tribunal, instead of the waste and bitterness of war.

but invariably for cash, and therefore can and do sell at less prices than the piano dealer who love of right, a treaty of arbitration, designating the class of issues to be referred, and determining certain methods of procedure in constituting and convening the tribunal, as well as certain essential rules governing the presentation of evidence. There would thus be a presumption, and practical facility, favorable to arbitration, such as do not now exist, and have not heretofore existed. The whole effect would certainly be on the side of peace with honor and justice with good will. It is not too much to say that such a treaty, or convention, between this country and Great Britain would tend toward the adoption of international arbitration

throughout the civilized world. THE K. OF P. FAIR.

were also used in abundance. Mr. J. W. Thompson, supreme outer guard of the Supreme Louge, made the ppening address, congratulating those who were in charge of the preliminary work in their thorough arrangement of every detail, and predicting a successful and en-

Close of the Hebrew Fair.

After two weeks of successful continuance, the Hebrew fair closed last night, and the small array of articles that remained undisposed of were sold at auction. There was a good-sized crowd present, and the managers are quite sanguine as to the results of the venture. The executive commattee will settle up the accounts as early as possible, and it is thought that the amount of the profits will be announced next week. After the auction last evening, the floor was cleared for dancing.

Incarnation

Church of the Ascension-

Arrangements have been consummated

one of Washington's Protestant Episcopal churches will lose its rector and another church of the same denomination its assistant rector. The former is the Church of the Incarnation, Rev. Israel T. Townsend, S. T. D., rector, and the latter the Church of the Ascension, Rev. William Tayloe Snyder, ascasting about for a successor to the doctor. cepted instead the call to Trinity Church, New Haven. Since then they have made other efforts, and last evening both Dr. Townsend and Rev. Mr. Snyder confirmed the report to a Star reporter that they had succeeded. Mr. Snyder is appointed assistant rector of Incarnation, with the right of succession to the rectorship. This practically means that he is to be the rector, as Dr. Townsend is not only contemplating tendering his resignation to the vestry, but has already made up his mind to do so. When it was known two or three months ago that Dr. Townsend thought of leaving reports were heard that the old trouble in the congregation, which resulted in a number of Townsend and Rev. Mr. Snyder confirmed gregation, which resulted in a number of the members leaving two or three years ago, had come up in the shape of another split, but this is not true, as two reasons, entirely foreign to any such state of affairs, have led to the calling of a new rector. The first is that the doctor still feels very deeply the loss of his wife, less than three years ago, and the other is that, in consequence of his being a man well up in years, the church has somewhat dwindled in membership, and there is need of a young man at the helm the members leaving two or three years ago

here is need of a young man at the helm. When the Change Will Occur. Dr. Townsend has not definitely stated when he will leave, but it is thought that in about two months from now he will go to live with a daughter in Brooklyn. It

is also uncertain when Mr. Snyder will sever his connection with Ascension, but this is expected to happen a week or so after Easter. The question has been left for the decision of Rev. Dr. John H. Elliott, rector of Ascension, but he will hardly consent to part with Mr. Snyder, who is popular with both rector and congrega-tion, before the time mentioned. The retiring rector of Incarnation, from his long connection with the church and the part he has borne in its councils, is a wellknown figure in local church circles. He is a native of St. Johns, New Brunswick, but received his collegiate education at Columbia College, New York, and his theological training at the General Theological Seminary in the same city. His first parish was Graze Church, Cherry Valley, New York where parish was Grace Church, Cherry Valley, New York, where he stayed a few years, and then removed in succession to St. James Church, Danville, Conn.; Trinity Church, Jacksonville, Ill.; St. Paul's Church, Peoria, Ill., from which place he came to Washington and the Incarnation twenty-one years ago. The incoming rector, Rev. William Tayloe Snyder, was born and raised in the District, where his family is well known, and received his education here. He studied law and practiced by fore the lead of the studied law and practiced oation here. He studied law and practiced before the local bar for some time, but afterward concluded to take orders and received as his first position in the ministry of St. John's the assistant rectorate of St. John's Church, Rev. Dr. George William Douglas then being rector. At St. John's he had charge of St. Mary's Mission, since grown into a church, and was closely identified with work among the colored people. He went to Ascension in 1892, and has remained there ever since The

AT THE REFORM SCHOOL. Dr. Whitman Told the Boys About Geo. Washington.

Dr. Whitman, the president of Columbian University, Sunday went out to the boys' reform school, and, taking charge of the afternoon devotional exercises, he improved the occasion to tell to the 220 boys there why the memory of George Washington is honored. He said that each one could not be President-that for each one present to have a chance at the office would compel some to live 800 years, this not counting the contingency of any one having a second term; but that each boy in his place in life could pattern after the boy and the man Washington - always doing his duty bravely, cheerfully and unselfishly-and the bravely, cheerfully and unselfishly—and the result would be a noble, helpful manhood, which was more to be prized than any presidency. The exercises closed with appropriate songs and a benediction by Dr. Whitman. The audience of these unfortu-nate youths-many of them present through no wrongdoing of their own, but because of the misfortunes and neglect of parents enjoyed the occasion to the full, as also did Dr. Whitman, whose cordial promise to come again and take charge of the Sunday services gave intense satisfaction to the officers and trustees of the school who

Celebrated the Day. A pleasing and somewhat remarkable

event came in conjunction with the last

hours of Washington's birthday in the home of Frank and Ann Howard, living at 2822 Pennsylvania avenue. This was the birth of triplets, all of whom were lusty and good-looking boys. Dr. Appleby was the efficient and very much surprised physician who officiated, it being, he says, the first case of triplets in his experience as a practitioner. He was less disconcerted, however, than was Mr. Howard, and rallied to the emergency in excellent style. The newcomers were named in the order of their seniority, George Washington Howard, Francis Lafayette Howard and Grover Cleveland Howard. To the sorrow of Mr. and Mrs. Howard and their friends, the latter of the three died when he was but nine hours old. The surviving broth-ers and their mother are doing nicely.

A BIG LABOR COMBINE.

Glass Workers Propose to Raise Mil-Hone for a Strike Fund.

While but few workingmen in Washing on are directly interested in the results of a meeting held during the past few days in Pittsburg, many labor leaders here are taking a deep interest in the matter, as they believe, they say, that many other erafts will eventually take similar action for their own protection.

The gathering at Pittsburg was composed of delegates from the organized glass trades, and resulted in the formation of a formidable combination.

Plans were adopted for an alliance between the three great labor unions in the glass industry, which will involve the wel-fare of 75,000 workingmen in the United states and Canada. A fund of several million dollars is to be raised by per capita tax within the next few years by the American Flint Glass Workers' Umon, Window Glass Workers' Association and the Glass Bottle Blowers' Association of

the United States and Canada.

This fund will be used to support the members of the organizations named in every contest with the manufacturers' combination which may arise in the future. The financial strength of all will be put at the back of any one of them which may become involved in strikes or lockouts. In addition the big defense funds which each union now has will be increased, and it is proposed to fight capi-tal with capital in case, in the opinion of the officers of the organization, a conflict An eastern delegate who was seen by

Star reporter and who was returning to his home by way of Washington, said that the object of the alliance is not to rob each organization of its autonomy, but is an actual dreibund, which, in case of a strike or trouble with the manufacturer, will result in all the members being called on to contribute toward a fund to support on to contribute toward a fund to support the strikers. Considering the wages many of these men make when working and the amount of money they pay into the strike funds annually it will make a formidable amount of cash for capitalists to contend against. Many of the men in the Flint Glass Workers' Union have in the past two years paid as much as \$200 a year into the strike fund.

The delegate said that he was not at life. The delegate said that he was not at lib-erty to state the amount of the proposed per capita tax at present, but admitted that assessments will be made regularly

upon the membership of the unions. About \$50,000 per month can, he said, be raised easily among the glass workers. MCKINLEY AND PENNSYLVANIA.

A Harrisburg Man's Explanation of the Quay Movement.

To the Editor of The Evening Star: reasons put forth by the friends of Gov. McKinley to account for the launching of the Quay presidential boom. They say it is an effort to keep this state from support-

ing their candidate. The facts are that just after the election of 1894 there was some McKinley feeling in this state, probably stronger than for any other candidate, but it was not deep seated, and as soon as the merits of Speaker Reed began to be discussed he easily became the favorite. That most of the leaders favorable to McKinley were arrayed with the "combine" forces against Quay in August of last year, and when that movement met its Waterloo the star of McKinley in Penn-sylvania became extinct; that at no time since has he had even the slightest prospect of securing more than a half dozen scattering delegates; that there have, up to the present, been twenty delegates elected in this state and the first choice of all of them has been Reed, McKiniey being no better than the third or fourth choice of most of them; that at no time since last August has there been any doubt among the republicans of Pennsylvania of Sena-

tor Quay's ability to have a practically solid delegation to follow his lead at St. Louis. In view of these facts it is necessary to cok for some better reason for the Senator's candidacy than that it is necessary to secure control of a united delegation from

this state.

The friends of Mr. Reed have stronger reasons for objecting to the Quay candidacy than those of Gov. McKinley, but "our Tom" has always seemed to act as if he thought that the republican party was so large that no one may in it could underso large that no one man in it could under-take to give the whole show alone, and he is not departing from that view in this Although there may be some people labor-

Although there may be some people laboring under the impression that the republican nemination for the presidency has become the property of the states of Ohio and Indiana, a search of the records will fail to show any such deed recorded.

Why, the presidency is something that every American schoolboy, in every state in the Union, is taught to aspire to. It seems about time to teach Ohio and Indiara schoolboys that they must expect competitors in other states. We all want a chance either for ourselves or our some charce either for ourselves or our sons, and it would greatly inconvenience some of us to move either to Ohio or Indiana. It is but just to the latter state to say that she has had modesty thrust upon her this year early in the contest, and I fancy there favorable to another object lesson being given to the schoolboys of their own state.

FOOD STRENGTH.

It Comes From the Right Food Properly Digested.

Food strength is natural strength. It is new strength; created strength. That is, it is not stimulation.

The real strength of your body is your constitu tional strength, your reserve strength. It is the result of eating proper food and digesting it. Eating food does no good at all; rather harmunless it is digested. So that everything narrows itself down to one proposition: How is your di-

One person in three of us have indigestion in som form or another. It is not really a disease, but condition; a condition which may become serious. We all wish to be strong, and we might all become so if we digested our food. The loss of your strength is a serious matter. It may be the beginning of a dangerous disease. It may mean that you cannot go on with your work. Shaker Digestive Cordial is an aid to digestion

It is a strength maker. It makes your food nourish the symptoms of acute dyspepsia, tones up the system and creates fiesh, energy and strength. Taken regularly it will permanently cure indigestion and make the weak, thin, irritable, nervous dyspeptic, strong, fat, hearty and well again. A 10-cent bottle will show you what it will do,
